PANEL COMPOSITION

Panel Dimention

Measure	Standard	Available
Width	1250mm	1000mm, 1250mm, 1500mm
Thickness	0.3mm - 0.5mm	4mm, 5mm & 6mm
Length	3200mm, 4000mm	Up to 11,000 mm

PAINT SYSTEM

Paint Tolerance

Measure	Standard	Measure	Standard
Width	+2mm	Bow	Max 0.8%
Thickness	+2mm to 4mm +3mm to 6mm	Skin Thickness	As per International Standards
Length	+4mm	Squareness	Max 5mm

Where Safety Meets Architectural Brilliance!

Alubond offers a full range of Fire Rated Metal Panels including Solid Aluminum, FR-A1 Mineral Core, FR-A2 Mineral Core, FR Euroclass B and various other panels like Exotic Metal Panels in a choice of metal skins like Galvanized Steel, Stainless Steel, Copper, Bronze and Titanium.

In addition to the production of metal composites, the company also has complete backward and forward integrated manufacturing facilities producing different grades of fire retardant mineral cores and granules, fire rated bonding adhesives, color coated coils, and custom paints.
